

TED BED EAD - leading European manufacturer of mattresses

The Bulgarian company TED BED EAD is a leading European manufacturer of mattresses, beds, sleeping systems and bedroom accessories, with more than 25 years of experience in this field.

In view of the complicated situation surrounding the spread of COVID 19 as well as the lack of hygiene products, TED BED EAD declares that it has the additional capacity and equipment provided to provide mattresses, beds for healthcare facilities, if necessary, on a much larger scale. from the expected demand in Bulgaria, ready to supply other EU Member States. TED BED EAD has a number of products certified by the Executive Agency for Medicinal Products as medical devices and we will be able to use it with our quality products and customers from EU Member States.

We have an excellent logistics and transport network and will be able to ship orders across Europe when ordering. is a leading European manufacturer of mattresses, beds, sleeping systems and bedroom accessories, with more than 25 years of experience in this field.
