INFORMATION

Founded: 2004

Certification: ISO 9001:2015, IQNet

Number of staff: 70 people

Main activities:

- Development and production of composite components of contact welding machines: electrodes, electrode holders, tape shunts, flexible cable jumpers with and without water cooling;
- Production of Plasma, TIG and MIG-MAG welding torches and consumables;
- Production of technical chemicals: surface coating from welding splashes, lubricants and cooling liquids;
- Production of electrical contacts: spring, lamellae, including electroplated contacts and their spare parts;
- Production of items made by powder metallurgy (ferrous and non-ferrous);
- Production of antiseptic hand products: lotion, jelly.

Cooperation offer:

The company is looking for consumers for manufactured products (tools for welding, machining, nickel-plating, tin-bismuth coating and silver coating) and also partners in industrial cooperation.
